

Project Status report

Name:	Premal, Vishva & Pratik
Community & UN SDG(s):	Good health & wealth being, Life on land and Quality Education
MVP #	
Sprint cycle dates:	10-02-2025 to 24-02-2025

Project Name	PetCuesGame – Educational Animal Safety Game
Blurb	PetCuesGame is an interactive web-based educational game that teaches children safe and responsible pet interactions through real-world scenarios. The game aligns with UN Sustainable Development Goals (SDGs) by preventing injuries (SDG 3), enhancing digital education (SDG 4), and promoting animal welfare (SDG 15). No major changes to the project vision, but we are refining UI design and scenario-based learning mechanics
For Week Ending	24/02/2025
Project Status	Yellow
Status Description	The project is progressing as planned, with implementing features of the game.

Activities—During the past sprint cycle

Setting up the GoDot
Game Development
Technology & Integration
Working on research paper

Project Issues

Animation Glitches: Characters or objects not animating properly or jerky movements.

Responsive UI Problems: The user interface not adjusting properly to different screen sizes or resolutions, resulting in misaligned or cut-off elements.

Difficult Debugging Tools: Struggles with debugging using the built-in tools like breakpoints, logging, or visual debuggers.

Project Changes

No changes

Activities—Planned for Next Week

Expand game scenario
Implement 3D model

University
of Regina

Reflection

Do you feel "on track"?

Ans- Yes we are on track.

What progress do you particularly feel good (great) about?

Ans- Successfully developed and tested core game mechanics.

What barriers (if any) do you feel is/are a current impediment to success?

Ans- We need to learn GoDot Script to develop 3D model

What help (if any) do you require to move positively forward?

What questions or concerns do you have (if any)? - NA
